Permit No. 624579

Project No. ____________

TO THE CONTRACTOR/OWNER

____
Property Address

1. This card must be posted in a conspicuous place on the premises.
2. Call DCLU Inspection Division (625-2301) for all of the applicable inspections:

a. foundation (setbacks, reinforcing steel, soil bearing)
b. fireplace and chimney reinforcing steel
c. concrete & masonry reinforcing steel
d. glu-lams, wood trusses
e. diaphragm nailing (walls, floors, roofs, including connections)
f. framing
g. insulation
h. stucco lath & gypsum board nailing
i. mechanical HVAC
j. final inspection

Inspections will be made on the same working day if you call between 7:30 and 8:30 a.m. Inspections will be made on the next working day for calls received after 8:30 a.m.

Please clarify which inspections are required before proceeding with your project. If you have any questions, call the building inspector at 625-2301 between 7:30 and 8:30 a.m., or leave a message after 8:30 a.m.

When special inspection is required, notify inspection agency specified on approved plan, 24 hours in advance.

3. PROPERTY LINES MUST BE ESTABLISHED BY SURVEY STAKES PRIOR TO FOUNDATION INSPECTION.
4. This permit does not cover sewer, street use, plumbing, electrical, furnace, boiler, elevator, Fire Department, public right-of-way shoring, or sign permits. If any of these permits are required, you will need to apply for them separately from this permit. Additional permits may also be required for work covered by this permit.
5. The requirements for all permits related to this permit (including but not limited to plumbing, electrical, Master Use, and street use permits) shall be completed prior to final inspection.
6. Premises must not be occupied until final inspection is made and approval granted by the Seattle Department of Construction and Land Use.
7. FINAL INSPECTION IS REQUIRED ON ALL PERMITS.

IN RE:

August 24, 1970

Honorable Wes Uhlman
Mayor
City of Seattle

Dear Sir:

Returned herewith are copies of Citizens petitions regarding 1610 - 1614 South Washington Street and 221 - 18th Avenue South.

These properties are in the Yesler-Atlantic Urban Renewal Area and are being processed by Community Development Department.

I talked to Mr. Jackson of Y.A.N.I.P. He is answering these complaints and will send a copy of his letter to your office.

Very truly yours,

LESTER J. GILLIS
Acting Superintendent of Buildings

1601--25 E. Yesler, et al

Ken Kubota
Arai/Jackson
Architects & Designers
1100 19th Avenue E.
Seattle, Washington 98112

Dear Mr. Kubota:

This is in response to your letter asking whether a nursing home is considered as a non-residential building, and if so, requires any yards (setbacks) or lot coverage limitations.

Based upon our review of the zoning and Land Use Codes, under BC zoning, a nursing home is considered to be a residential use (see 24.08.030 "Building or part, residential")and is subject to the bulk limitations of sections 24.44.130-150 for residential buildings. Under L-3 zoning, a nursing home has specific development standards (see Sec.23.45.88 for those standards). Also, the use must meet the setbacks,open space and other requirements as required in L-3 zones.

If you need additional information, please call me at 625-4509 after 10:30 a. m. or contact Judy Talman at 625-2781.

Very truly yours,

WILLIAM J. JUSTEN, P. E.
Director

RE: Energy Analysis for
Keiro Nursing Home at 1601 E. Yesler Way
(DCLU Project Number 8602347)

Ken Kubota
ARAI/JACKSON
1535 - 11th Avenue
Seattle, Washington 98122

Dear Ken Kubota:

We have received and reviewed the revised energy analysis dated August 28, 1986 submitted for Keiro Nursing Home at 1601 E. Yesler Way. The analysis is acceptable and does demonstrate compliance with the major projects' requirements of the Seattle Energy Code provided that the installed interior lighting wattage does not exceed 1.0 watts per square foot.

With regard to future projects, it is important to note that this approval does not necessarily signify complete agreement with all the modeling assumptions, but rather our satisfaction that minimum required energy has been achieved. Should the Seattle Energy Code be revised, any work including tenant alterations for which permit applications and renewals are submitted after the effective date of code revisions will be subject to either the requirements agreed to above or those in a revised code, whichever are more stringent.

We suggest that a copy of this letter be attached to all other permit applications related to this project to allow processing of the applications to proceed smoothly.

Please call me at 625-2280 after 10:30 a.m. if you have any additional questions.

Sincerely,

HOLLY MILLER
Director

NOTICE TO THE APPLICANT: The Department of Construction and Land Use cannot guarantee any specific time frame for project review. The applicant shall determine applicability of and compliance with all relevant codes. DCLU permit action is based upon information supplied by the applicant. The Department reserves the right to require additional information. Field revisions on issued permits may be required if errors or omissions are discovered.

Construction or substantial progress toward construction of a project for which a Master Use Permit or construction permit has been granted must be undertaken prior to the expiration date. Extension of the construction permit without penalty may be granted if application is made within the 30 days prior to the date of expiration. Additional fees will be assessed to reinstate an expired permit.

Not valid unless signed by the DIRECTOR OF THE DEPARTMENT OF CONSTRUCTION AND LAND USE. Starting construction without a building permit is punishable by fine and/or imprisonment. All work shall be done in accordance with the permit and approved plans. Call for inspection before placing any concrete or installing any piling on private property. Phone 625-2301

I certify that I have read the above notice, and that to the best of my knowledge, the information which I have provided is complete and accurate.

Re: 1601 East Yesler Way

Rod Kawakami
T & C Building
671 South Jackson Street, Suite 201
Seattle, Washinton 98104

Dear Mr. Kawakami:

Ken Kubota of Arai/Jackson Architects and Planners has asked us to send you a letter regarding the established use of the Keiro Nursing Home, and the applicable zoning, at 1601 East Yesler Way.

The permits for the nursing home call out the entire block as the legal description of the site: Lots 1 through 6, Block 15, Yesler's 1st Addition, together with Lots 1 through 6, Block 3, Hill Tract Addition to Seattle. This parcel complies with subdivision regulations, and may be conveyed as a single site without further platting action.

The site is currently in an NC1-40' zone: Neighborhood Commercial-1, with a 40-foot height limit. Nursing homes are permitted as conditional uses in NC1 zones.

Permit No. 624579 (Project No. 8500834) was issued on June 25, 1986, for the demolition of structures on the site, and the establishment of the use, for future construction, of a 150-bed nursing home. A conditional use was a component of that project. A building permit, No.625411 (Project No. 8602347) for the nursing home was issued on August 4, 1986. The nursing home was built, and an Certificate of Occupancy was issued on May 26, 1987.

Applicable Land Use Code provisions have changed in the last few years, and it is possible that the nursing home does not meet all current standards. It may nevertheless continue to operate, and it may be rebuilt if it is ever damaged or destroyed: Seattle Municipal Code section 23.47.036 (B)(2) provides that "[a] nonconforming use which is destroyed by fire, act of nature, or other causes beyond the control of the owners may be resumed. The structure containing the nonconforming use may be rebuilt to the same or smaller

1601 E. Yester Wy

configuration existing immediately prior to the time the structure was destroyed." Section 23.47.038 (B) provides that "[a] nonconforming structure which is destroyed by fire, act of nature, or other causes beyond the control of the owner may be rebuilt to the same or smaller configuration existing immediately prior to the time the structure was destroyed."

If I can provide any further information, please call me at 684-8322.

Sincerely,

DENNIS J. McLERRAN
Director

RECEIVED
DEC 27 1988

Subject: Financial Institution Zoning Letter
For Seattle Keiro Nursing Home

Dear Mr. Fletcher,

Enclosed is a check for $35.50 for a Zoning Letter for the Seattle Keiro Nursing Home located at 1601 East Yesler Way. The project has gone through the Master Use Permit Process and construction was completed in 1987.

(35.50 check encl)

Please provide a letter required by the lending institution. The lending institution has requested that the following information be provided:

> Zoning Letter: A letter from the appropriate officer of the City of Seattle, Washington stating (a) the zoning code affecting the premises, (b) that the premises and their use as nursing home comply with such zoning code, city ordinances and building and use restrictions, (c) that there are no variances, conditional use permits or special use permits required for the construction of the improvements on the premises or their use or if there are, specifying the same and their terms, (d) that the premises as described comply with the platting ordinances affecting them and can be conveyed without the filing of a plat or replat of the premises, and (e) if the premises are non-conforming use setting forth the conditions under which the premises may be restored if they are damaged or destroyed.

IF THE IMAGE YOU ARE VIEWING IS NOT AS CLEAR AS THIS,
THEN THE ORIGINAL WAS A POOR DOCUMENT.

TOTAL PERMIT FEES: 2,899.00

NOTICE TO THE APPLICANT: The Department of Construction and Land Use cannot guarantee any specific time frame for project review. The applicant shall determine applicability of and compliance with all relevant codes. DCLU permit action is based upon information supplied by the applicant. The Department reserves the right to require additional information. Field revisions on issued permits may be required if errors or omissions are discovered.

Construction or substantial progress toward construction of a project for which a Master Use Permit or construction permit has been granted must be undertaken prior to the expiration date. Extension of the construction permit without penalty may be granted if application is made within the 30 days prior to the date of expiration. Additional fees will be assessed to reinstate an expired permit.

Not valid unless signed by the DIRECTOR OF THE DEPARTMENT OF CONSTRUCTION AND LAND USE. Starting construction without a building permit is punishable by fine and/or imprisonment. All work shall be done in accordance with the permit and approved plans. Call for inspection before placing any concrete or installing any piling on private property. Phone 684-8900.

I certify that I have read the above notice, and that to the best of my knowledge, the information which I have provided is complete and accurate.

420 Yale Ave. N.
Seattle, Washington 98109

RE: 1601 E. Yesler Way -- Keiro

Fire Alarm System
I1 Occupancy, Type II-1 Hr. Construction, 2 Stories + Basement

PLAN APPROVED

This plan is approved, subject to Ordinance, field inspection, and providing the following corrections are made:

1. The fire alarm/sprinkler system shall be connected to an approved central station.

2. Insure that the key to the control panel is located in the vicinity of the panel.

3. All equipment shall be installed per Article 760 of the Electrical Code and all circuits shall be electrically supervised. No wiring is permitted in elevator hoistways or machine rooms, Article 620 of the Electrical Code.

4. Arrange for electrical inspection prior to Fire Department final inspection. Call 625-2293.

5. For the final inspection, call 625-4085, 24 hours in advance. Have a copy of these approved plans on the job site.

6. A manual pull station is recommended for the parking garage.
